Fight Between Spanish and Cuban Forces.

300 KILLED AND WOUNDED

THE AFFRAY, ONE OF THE MOST SANGUINARY OF THE WAR.

Spanish Columns Under General Echagüe Attacks General Maceo in the San Juan Valley—Battle Rages Four Hours, When the Loyal Troops are Routed, Leaving their Killed and Wounded on the Field.

MINNEAPOLIS, Oct. 25.—A member of the Cuban junta who travels for the sugar trade, and who was a colonel in the first Cuban revolution, reached Minneapolis yesterday. While refusing to permit his name to be mentioned on the ground that the success of the junta's operations depend upon the secrecy of his movements, he nevertheless gave at late news received by the junta from Cuba. He has been concerned in every effort of the American junta to help the Cuban cause, including the Wilmington affair.

Following is a dispatch he received from Cuba describing the recent revolutionist victory which gave the control of the province of Puerto Principe to the insurgents:

"General Maceo, acting under orders from the war minister, started to march on Santiago de Cuba to join General Anichini in Los Balleas, in the province of Santa Clara, where they were to fight their forces and to raise the sugar plantations. The Spanish got wind of General Maceo's intentions and immediately dispatched a formidable column of 2,500 men under General Echagüe to prevent the junction of the Cuban forces. This column found General Maceo's army advanced on his way to the San Juan valley, in the south of Cuba between Polguin and Barajoga. Maceo had 3,000 men, of which 500 were cavalry and 2,500 infantry. The Spaniards had 200 men less, but this difference was more than compensated for by the possession of three excellent pieces of artillery. The battle began at once and was fought by the Cubans with great vigor. After four hours of terrific fighting General Echagüe was driven from the field in disorderly retreat, leaving killed and wounded men and all his artillery behind him. Since the battle the insurgents have overrun Pinar del Rio and have effected a junction with General Sanchez at Las Balleas. The column said: 'We are bound to win. We control three-fourths of the island now. Our men are armed not only with Mausers captured from the Spaniards, but also with Winchester Remingtons sent from the United States. There are over 300 American volunteers in our army, and more are going every day. Only a few of the selfish exploiters are sending out get into papers. We are now planning a plan that will put a final quietus on them. The Spaniards are fighting barbarously. They give no quarter and kill wounded. We are going to ask the United States for recognition when our needs meet. Our president, Salvador Morales, has sent Dr. Joaquin Castillo, remembered in connection with the Jeanette expedition, to this country to treat with President Cleveland. He has not arrived yet, and is probably having trouble in getting through the customs.'

MASONIC GRAND LODGE. Officers Elected to Serve for the ensuing year.

BRIDGEFIELD, O., Oct. 25.—The grand officers of the Free and Accepted Masons met last night after electing the following officers: Grand master, William B. Melish, Cincinnati; deputy grand master, Barton Smith, Toledo; grand warden, Nelson Williams, Hamilton; junior grand warden, E. H. Brounwell, Cincinnati; grand secretary, J. H. Brounwell, Cincinnati; grand treasurer, R. R. Rieker, Columbus; chaplain, Herbert Ketchum, Akron; grand marshal, F. S. Harbarger, Springfield; grand recorder, Edward Hagenbach, Cincinnati; grand doorkeeper, N. D. Kinsman, Columbus.

ELECTION FRAUDS. Man of Kansas City Street Gang Gives Damaging Testimony.

KANSAS CITY, Mo., Oct. 25.—In the City election fraud case yesterday H. Bradburg, formerly foreman of a street gang in Kansas City, said at the instance of Alderman John H. he had taken his men to several points within the city previous to last election and registered them such.

When afraid of detection at one of these points, he said it was all that Recorder John C. Owsley did.

Picked Up at Sea. STON, Oct. 25.—Captain Gaskill, and crew of the steamer City of Ston, reported on fire at sea by steamer Orizaba Wednesday, and this city on the Savannah City of Marion. They were picked up by the Macon soon after the burning vessel Monday.

Only the Word For It. KANSAS CITY, Oct. 25.—John H. the burglar, alleged son of the late of Lester, and who was banished from Ireland, is dying in his cell here. He is a unique character.

## DURRANT TRIAL

Attorney Polkoto Makes Opening Argument For the Prosecution.

SAN FRANCISCO, Oct. 25.—Assistant District Attorney Polkoto made the opening argument for the prosecution in the trial of Durrant.

When court convened General Dickinson asked that Miss Cunningham be recalled, but she was only asked a few unimportant questions and then excused. The remainder of the day was occupied by Mr. Polkoto. He discussed the evidence in the case from the time Durrant accompanied Miss Lamont to school on the morning of April 3 until he appeared before Grand Jury King in Emanuel church at 5 o'clock in the afternoon, pale, trembling and excited. He closed by asking the jury to uphold the laws of the State by rendering a verdict of guilty and fixing the penalty at death.

During Mr. Polkoto's argument the courtroom was crowded. Rev. J. George Gibson of Emanuel church and his secretary, Robert N. Lynch, occupied seats near the jury box and paid close attention to the speaker. Durrant sat stolid and indifferent in his usual place beside his attorneys, surrounded by his father, mother and a number of friends. Durrant betrayed no emotion or feeling even when accused of murders that were compared with the crimes of Jack the Ripper in the Whitechapel district of London. His mother, however, looked more thoughtful and depressed than she has at any other time since the trial began.

When Mr. Polkoto closed his argument at 3:30 o'clock General Dickinson for the defense asked for a continuance until Monday in order that Attorney Durrant might make the opening argument for the defense. He produced a certificate from Mr. Durrant's physician to the effect that he was unable to appear in court at present, but probably would be well enough to resume his duties on Monday.

District Attorney Barnes objected to the delay, and as the court was opposed to granting a continuance the motion was denied.

## CHOLERA SCARE OVER.

Port of Honolulu Given a Clean Bill of Health.

HONOLULU, Oct. 25.—Per steamer Mariposa via San Francisco, Oct. 24: The board of health has lifted the quarantine and Honolulu is once more a clean port. No cases of cholera have been reported for over two weeks, and there is reason to believe the trouble is over.

Now that the cholera trouble is over the government will take up the claims of the British arising out of the January rebellion. Minister Hatch is preparing the government's defense. The taking of the testimony in the Cranscomb suit against the Vancouver (B. C.) steamer Warrimoo commenced today. Cranscomb wants \$20,000 for being forcibly taken from this country.

## SKULL CRUSHED.

Bloodhounds to Be Used to Track the Murderer.

SOUTH GREENFIELD, Mo., Oct. 25.—A. W. D. Ford was passing along the railroad yesterday when he discovered a man lying in the center of the track about half a mile west of town, and upon examination it was found to be the body of W. T. Perrell, druggist and liveryman of this place. Perrell's skull was crushed in, evidently by a blow from behind. It is evident that he was murdered and then placed on the track. A telegram was sent to Springfield to an owner of bloodhounds, and an effort will be made to track the murderer.

## DESPERATE DUEL.

One of the Participants Dead and the Other Dying.

HORSTON, Oct. 25.—Sidney Lane, a Southern Pacific brakeman, started out yesterday with blood in his eye and pistol in hand to hunt Conductor C. H. Neville. The latter had been warned, and when he saw Lane opened fire on him. Lane returned the fire and a desperate duel ensued. Neville was struck three times and died in an hour. Lane was hit twice and will die before morning. After firing five shots each the men clinched and beat each other over the head and face with their pistols in a horrible manner.

## AN ELECTRIC DEAL.

Edison Company in Philadelphia Leases Its Plant.

PHILADELPHIA, Oct. 25.—A committee of the Pennsylvania Heat, Light and Power company has arranged the preliminaries of a 99-year lease of the property of the Edison Electric Light company with a committee of the directors of the latter company. Under the lease the Pennsylvania company guarantees an 8 per cent dividend on the Edison stock for two years, and a 9 per cent dividend thereafter.

## Letting Out Bad Blood.

NASHVILLE, Oct. 25.—Dabbell Walker of Cookeville was shot and killed at the Union depot yesterday afternoon by young Terry, also of Cookeville. Some time ago Terry's brother killed Walker's brother in the mountains, and since then there has been bad blood between the families.

## Found in the River.

WARREN, O., Oct. 25.—Rouben Shoenberger, who disappeared last Friday night from his home here while unbalanced by sickness, was found dead in the Mahoning river. He had started to cross the Erie railroad bridge and either fell or jumped over.

## Shot Through the Heart.

CHICAGO, Oct. 25.—Walter Dobbins, 18, shot and killed Joseph Miller, a carpenter, because the latter used insulting language toward Dobbins' mother. Miller and Mrs. Dobbins had quarreled and the man applied a vile epithet to the woman.

## TWO WRECKS.

Postal Cars and Contents Destroyed by Fire.

MANY PEOPLE INJURED.

AMONG WHOM ARE CONGRESSMAN MORSE, OF MASSACHUSETTS.

Engineer and Fireman Instantly Killed and Several Postal Clerks Injured on the Pennsylvania Road—Man Killed, Woman Fatally and Twelve Other Passengers Seriously Injured on Hudson River Road.

NEWPORT, Pa., Oct. 25.—A disastrous wreck occurred on the Pennsylvania railroad here yesterday. A disabled car on the eastbound freight track jumped across just as mail train No. 7 was passing.

The locomotive and tender were hurled into the canal and the postal and freight cars were piled up over the tracks.

Engineer Weikell and fireman Haines of Harrisburg were instantly killed and 8 or 10 postal clerks were injured.

Injured.

C. A. Chamberlain, Harrisburg. E. S. Colville, Pittsburg. L. R. Brand, Harrisburg. A. E. Woodruff, Lewistown, Pa. M. S. Good, Mount Joy, Pa. A. T. Rowan, Trenton, N. J. Joe Donald, freight brakeman, Elmira, Pa.

George Gilmore. J. C. Campbell, Gallitzin, Pa. C. A. Chamberlain of Harrisburg is reported fatally injured.

Four mail cars took fire, and together with a large amount of mail matter, were burned up.

Passenger trains are running by way of the Northern Central and Saubury and Lewistown divisions.

## Rear-End Collision.

HYDE PARK, Mass., Oct. 25.—A rear-end collision occurred here on the New York and Haven and Hudson River road at 5:12 p. m. yesterday in which one man was killed, a woman fatally injured, and 12 other passengers, including Congressman Elijah A. Morse, were more or less seriously hurt.

The regular manifest accommodation train, due in Boston at 5:47, was just leaving the Hyde Park station 10 minutes late when the New London and Providence express, due in Boston at 6:10, came running down from Canton Junction on a perfectly straight track and crashed into the rear of the manifest train.

The engine of the Providence train plowed through the end car for a distance of five or six feet, and caused this car to telescope the one ahead. Between these cars was brakeman Austin, who was caught and remained jammed in the wreck for nearly an hour.

As soon as the dazed people about the station realized what had occurred, a rush was made for the train and the work of taking out the wounded began. A wrecking train with General Superintendent Allen on board was at the scene within half an hour. All the physicians in Hyde Park, Dedham and Milton were summoned and the police department of Boston was notified.

Ambulances were sent out from there and others dispatched to the Park Square station, Boston, to remove those of the wounded who were sent to that city by special train. All the seriously injured were sent to the Massachusetts general hospital in Boston.

It was nearly 6:30 before the unfortunate brakeman could be extricated from the mass of debris between the two cars, and he died shortly afterward. Both his legs were broken and he was jammed frightfully about the body.

## This One in the West.

DES MOINES, Oct. 25.—The Ruthden express collided with a switch engine at Valley Junction last night on the Rock Island. Mrs. Mary Hillhouse of Burlington was killed. Lee Gibson and Frank English were injured.

## No One Killed.

KANSAS CITY, Oct. 25.—A passenger train on the Kansas City, St. Joe and Council Bluffs road was wrecked in an open switch at Waldron last night. Four coaches left the track. A dozen passengers were painfully injured. None will die.

## He Resisted Arrest.

WEST CARROLLTON, O., Oct. 25.—Charles Knight resisted arrest for riding a bicycle on the sidewalk, assaulted Marshal Jacob Miller and was shot in the right breast.

## Assault and Battery.

LONDON, O., Oct. 25.—Albert Bradfield, tried for murdering Albert D. Stone at Lally Chapel, was convicted of assault and battery.

## EX-SENATOR VAN WYCK DEAD.

Brief Sketch of His Long and Honorable Career.

WASHINGTON, Oct. 25.—Ex-United States Senator Charles H. Van Wyck of Nebraska died late yesterday afternoon in his apartments at the Portland Hotel.

Charles Henry Van Wyck was born at Poughkeepsie, N. Y., May 20, 1828. He graduated at Rutgers college, New Jersey, in 1851, and soon afterward entered upon the practice of law. From 1852 to 1856 was district attorney of Sullivan county, N. Y. He served in the lower house of congress two terms, from 1856 to 1859, in the house he was elected speaker of the fourth regiment of New York volunteers. He went to the front and served with General McClellan in the Peninsula campaign. In 1860 he was brevetted brigadier general.

After the war he returned to the practice of his profession, and was again elected to congress in 1877, and again served two terms. In 1874 he removed from New York to Nebraska, and engaged in farming. But he soon drifted back into politics, and in 1876 was a member of the constitutional convention. He was elected to the senate in 1887 and returned to Nebraska, where he was subsequently twice a candidate for re-election without success.

Mr. Van Wyck, although a very rich man, was an implacable foe of corporations. He was a great lover of antiques, and during his residence here haunted the auction rooms. In many things he was regarded as eccentric.

Mr. Van Wyck married a daughter of General Broadhead of Pennsylvania, whose brother, Rev. Augustus Broadhead, is a well known missionary in India. Mr. Van Wyck had been in poor health for several years. About two years ago he suffered a stroke of paralysis. His widow and a daughter survive him.

## THE GREAT FIZZLE.

Club Declares Match Off and Corbett Claims the Belt.

NEW YORK, Oct. 25.—The following telegram was received by the editor of a sporting paper here yesterday:

HOT SPRINGS, Ark., Oct. 24. I claim the championship belt by force. Fitzsimmons insisted to live up to a single agreement and club declared match off. For that reason the stakeholder also declared him forfeited. I want you to acknowledge this claim and announce publicly today that I will offer the belt to be fought for by Maher and O'Donnell. Answer quick.

JAMES J. CORBETT.

To this dispatch the following reply was made:

To James J. Corbett, Hot Springs, Ark.: According to conditions governing the belt, its disposition goes with decision of referee. In absence of referee it depends upon final disposition of stake money. If, after Oct. 31, stakeholder Dwyer acknowledges your claim to Fitzsimmons' stake money, belt will be awarded to you. The declaration by club that match is off is not a factor in agreement between you and Fitzsimmons. If no fight Oct. 31, articles of agreement are nullified. If you announce your retirement as champion we will offer belt for competition by Maher and O'Donnell or any other challenger.

## Fitzsimmons' Latest.

CORRIS CHRISTI, Tex., Oct. 25.—Said Fitzsimmons today: "Corbett has acted a coward and a sneak in the whole business, and if I ever meet him I'll tell him so to his teeth. I intend to complete my four week's training at this place, fight or no fight."

## MUNICIPAL CONTROL.

An Indiana Electric Light Plant Operated With Profit.

LOGANSPORT, Ind., Oct. 25.—The Logansport city council, which recently caused to be constructed and placed under municipal control here an electric light plant costing \$50,000, is congratulating itself upon the successful issue of its enterprise. Already the system furnishes lights for over 1,600 lamps of the incandescent variety, in addition to the 180 used for street lighting purposes. The revenue from the plant exceeds \$800 per month, or over \$200 more than is sufficient to meet operating expenses.

## Frenchmen Take a Good Thing.

SAN FRANCISCO, Oct. 25.—The Champion quartz mine has been bonded to the representatives of French capital for \$1,250,000. The first forfeiture of \$75,000 has been paid down, an equal amount will be due next month and so on until Jan. 31 next, when the time of option will cease.

## Accepted Their Resignations.

MOSCOW, Ind., Oct. 25.—Judge Beatty has accepted the resignations of Receivers Payne, Oakes and Rouse of the Northern Pacific, and appointed Andrew F. Burleigh receiver for Idaho.

## Dakota Divorce Granted.

YANKTON, S. D., Oct. 25.—The decree of divorce has been granted in the case of Mrs. Mabel W. Yznaga against Ferdinand Yznaga of New York City.

## Hit the Wrong Man.

MANSFIELD, O., Oct. 25.—George Alheim and John Ricketts quarreled in the former's place of business in this city last night. Alheim shot at Ricketts. The bullet failed to hit its intended victim, but struck and fatally injured Clifton Lime, who was passing.

## Fatal Encounter.

MIDDLESBORO, Ky., Oct. 25.—In an encounter over Sarah Carson near Arthur, five miles from here, Wiley Green shot and killed James Collins. Green escaped. A large reward is offered.

## His Horse Stumbled.

LONDON, Oct. 25.—Lord Delamere, while hunting near Torporey, had his horse stumble under him and he was thrown. As a result of the accident he is in a critical condition.

## In Close Quarters.

GREEN BAY, Wis., Oct. 25.—Large fires are raging immediately east and west of Seymour, the one west having approached to within a quarter of a mile of the city.

DALLAS, Oct. 25.—Fire destroyed more than \$100,000 worth of property in the best business part of McKinney, the county seat of Collin county.

## SWIFT

Punishment Given to Fifty Young Turks.

THE REVOLUTION BROKEN.

A SYSTEM OF SPEEDY PUNISHMENT WORTHY OF EMULATION.

Culprits Found Guilty of Excesses During the Recent Riots—Taken by Riots of Turkish Man-of-War into the Swift Current and Dropped Overboard—Minister of Marine Closely Watched.

LONDON, Oct. 25.—The Standard this morning has further details from its correspondent at Constantinople regarding the execution of the 50 young Turks who were arrested on Saturday on a charge of excesses during the recent Armenian riots. The 50 culprits, after a trial, were conveyed by night aboard a Turkish man-of-war, whose boats took them into the swift current and dropped them overboard.

"I am unable to assert," continues the correspondent, "that these measures have entirely broken the spirit of the Turkish revolutionists. Hassan Pasha, minister of marine, is also suspected and is closely watched."

## DUPLICATE WARRANTS.

The Two Indian Who Entertained Mind Responsible For Them.

ECFAULA, I. T., Oct. 25.—The Creek per capita payment has closed at Okmulgee. About \$200,000 was paid out during the last 40 days. No national warrants were paid, owing to the vast number of fraudulent and duplicate warrants issued. More than \$200,000 of these fraudulent warrants have been detected by the examining committee up to date, and their work is not yet finished. The duplicate warrants represent a gigantic amount of corruption. The Creek council will meet again on Nov. 15, and after separating the bad warrants from the good payment will take place.

## WILL GET ALONG VERY WELL.

Students of Naval Construction Barred Out of English School.

WASHINGTON, Oct. 25.—Apparently the British authorities feel that they have gone as far as prudence and courtesy permits in assisting in the education of our naval constructors, for the navy department has been notified that hereafter no American naval officers will be permitted to take the course at the Greenwich Royal school of naval architecture. The Glasgow school and that at Paris, however, are still open to our young constructors, and with the opening of the Cornell course on naval architecture, the navy department feels that it can get along very well.

## ILL-FATED ENGINE.

Latest Victim of Hooded Locomotive Regaining Consciousness.

GREENVILLE, Pa., Oct. 25.—P. S. & L. E. engine 32, which has killed two engineers within a few months, was taken out of the shops last week. All the engineers have a dread of this ill-fated locomotive, and there were many direful predictions when Engineer Charles Hull took the engine out. Today he is recovering consciousness after serious injury received at Springboro. The train had stopped on a siding, and in walking out on the running board, Hull lost his balance and fell into a ditch by the side of the track and was injured severely.

## NATIONAL EXPANSION.

Ingersoll's Remarks Received With Thunderous Applause.

BLOOMINGTON, Ill., Oct. 25.—Colonel Robert G. Ingersoll addressed the annual reunion of the Soldiers and Sailors' association of McLean county here last evening. In the course of his remarks he advocated strongly the annexation of Canada, Hawaii and Cuba. "The stars and stripes should wave over all the country from the gulf of Mexico to the Arctic ocean." He also favored recognition of the Cubans as belligerents. His sentiments were received with thunderous applause.

## DESTRUCTIVE BLAZE.

Assistant Chief of Albany Fire Department Fatally Injured.

ALBANY, Oct. 25.—The probable death of J. C. Griffin, assistant chief of the fire department, and a loss of \$300,000 are the results of a fire which totally destroyed the immense store and stock of B. Stark & Company's fancy goods and millinery establishment, 13 South Pearl street, this city, and which gutted the business houses occupied by Florine Eyre, Killip & Hineman's gents' furnishing and Rancour's barber shop.

## Three Fatal Accidents.

PHILADELPHIA, Oct. 25.—Three persons were fatally burned yesterday by their clothes catching fire. They were Mamie Southwick, 2, who was playing with matches; Mrs. Caroline Snyder, 55, burned by the explosion of a lamp, and Mrs. Rebecca Cohen, 34, burned by the explosion of an oil stove at her home. The two former are dead and the latter's death is hourly expected.

## Good Sleighting In Michigan.

MICHIGAN, Mich., Oct. 25.—Snow has fallen every day for a week and there has been good sleighing for two days, the earliest on record. In Baraga county, a few miles west of here, there is more than a foot of snow in the woods.

## WITH SUPPLEMENT

The Japanese Look Upon the Assembly of Russian War Vessels.

WASHINGTON, Oct. 25.—The Japanese were looking upon the assembling of Russian war vessels in the Pacific as a move toward the Korean peninsula. It is regarded as representing a grave condition, if facts are as reported. The fact that Russian ships are pointed toward the Korean peninsula is especially significant.

Pusan is at the southeasterly extremity of Korea, and is the port nearest Japan, being only 12 hours' sail from the Japanese mainland. Further north is Wuu San, the strategic point in Korea which the Russians have long sought to secure. It is on the coast of Korea, in the middle of the east coast of Korea. The north arm of the bay is known as Port Lazareff, and here the Russian fleet comes regularly for maneuvers. The bay is the only useful harbor in the stretch of 600 miles along the east coast of Korea. The harbor is perfectly sheltered and is open the year round. Leading authorities agree that it will ultimately be the terminus of the Trans-Siberian railway which Russia is building.

## LAND CLAIM SETTLED.

Court Holds Papers in Peralta Grant to Be Forfeited.

SANTA FE, N. M., Oct. 25.—In the court of private land claims a formal decision, finally rejecting the Peralta land grant in southern New Mexico and Arizona, involving 12,500,000 acres, held to be worth at least \$25,000,000, was handed down by Chief Justice Brand. The decision was concurred in by four other judges. The court holds that no alleged claimant, Miguel De Peralta, Baron of the Colorado, existed, and that the grant papers are forgeries. This conclusion is reached after careful researches by special agents and members of the court in the archives of Spain and Mexico.

## RUSSIAN DIPLOMACY.

Important Commercial Advantages Obtained From China.

LONDON, Oct. 25.—The correspondent of The Times at Hongkong learns from a reliable source that by the recently concluded Russo-China treaty Russia obtains rights to anchor her fleet at Port Arthur and to construct and work under Russian administration railways from Nerchinsk and Tishas to Vladivostok and from Tsitsihar to Port Arthur, together with other commercial advantages to which the most favored nation clause is not applicable. But the Chinese reserve the right to purchase the railways 20 years hence at a price to be arranged hereafter.

## Big Railroad Deal.

DENVER, Oct. 25.—A rumor is abroad in railroad circles to the effect that a movement is in progress with the object of uniting several of the transcontinental lines into one system, extending from Chicago to the Pacific coast. The lines said to be in the deal are the Atchafalpa, Topeka and Santa Fe, the Denver and Rio Grande, the Rio Grande Western, the Northern and the Oregon Shore Line.

## Suicide Caused by Remorse.

PARKERSBURG, W. Va., Oct. 25.—Samuel Cambridge committed suicide by shooting himself through the head. He left a note in which he stated that he committed suicide on account of his troubles. The trouble referred to is generally believed to be the killing or drowning of another young man several years ago. Cambridge was suspected at the time.

## Preparing to Resist.

PARIS, Oct. 25.—The Politique Coloniale, discussing the controversy between France and Brazil over the Amapa territory says that Governor Cabral is fortifying Amapa, establishing entrenched camps and shooting those who resist him. The governor is also reported to have received a piece of ordnance from the Brazilian government.

## Republican National Convention.

NEW YORK, Oct. 25.—The Sun says it has been decided to hold the Republican national convention about June 1 at Chicago or Pittsburg.

### WELL SATISFIED.

Was the Audience that Listened Last Night to Prof. C. C. Miller.

Prof. C. C. Miller, ex-state school commissioner, entertained a fair sized audience at the Marion business college Tuesday evening with his lecture "Eldorado, or the sunny side of life."

Mr. Miller is an all round good speaker. His language is so plain and incisive and is delivered so impressively that he commands the attention and respect of his audience from the beginning.

He chose Wm. Dean Howells as a true type of the literary man who has climbed to the top by making the

best of it. Looking at the sunny side. Then he mentioned Lawrence Barrett, Chief Justice Fuller, of the supreme bench and men of every profession always giving a character sketch which was in harmony in every instance with his subject.

**Profit in Lemons.**  
The man who owns a lemon grove in Southern California has a bonanza this year. The crop in all the southern counties was large, and, with improved methods of curing the fruit, the product compares favorably with the best imported lemons. At \$3 a box, there is a fortune in a lemon grove, as ten-year-old trees will produce from 10 to 12 boxes each. As there are 121 trees to the acre, the profit will run up to \$2,000 an acre, if the present price is maintained the whole season.

The effects from the start was magical, giving instant relief and no bad effects. I recommend it with pleasure to every mother in the land. Mrs. C. W. Cramer." Dr. Hand's Remedies for children sold by all druggists for 25c.

**"To What Base Uses."**  
"Ah, me!" sighed the old hand-ress, "I've had a hard row to hoe since the editor died. People don't seem to know what I was made for. At first they used me for a corn-sheller, and now they're using me for a mid-iron."

The Darlington, Wis., Journal says editorially of a popular patent medicine: "We know from experience that Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that is claimed for it, as on two occasions it topped excruciating pains and possibly saved us from an untimely grave. We would not rest easy over right without it in the house." This remedy undoubtedly saves more pain and suffering than any other medicine in the world. Every family should keep it in the house, for it is sure to be needed sooner or later. For sale by Melville Bros., next to P. O., and C. W. Heister, 58 Public Square.

**A Printer's Error.**  
An amusing printer's error occurred in a recent issue of the London Times. In announcing the marriage of a young city man to the daughter of a naval constructor at Greenwich, a few words of a telegram which apparently belonged to some notes from China or Armenia were printed after the interesting intelligence. They read as follows: "Trouble is expected."

If your children are subject to croup watch for the first symptom of the disease—hoarseness. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse it will prevent the attack. Even after the croupy cough has appeared the attack can always be prevented by giving this remedy. It is also invaluable for colds and whooping cough. For sale by Melville Bros., next to P. O.; C. W. Heister, 58 Public Square.

**Never Say Die.**

Then came William, who was the best of all. Then she was a child, who cried for Castoria. Then she became Miss, she clung to Castoria. Then she had children, she gave them Castoria.

**Children Cry for Pitcher's Castoria.**

The English speaking nations have been in the nineteenth century an Englishman, Mr. J. A. C. ...

Such a phenomenal pan-English contest would repeat on a larger scale the famous trials of Greece. From all the countries of the seas and daughters speak in the English tongue, from Australia and the South Seas, from the United States, from Canada and Great Britain, picked athletes would gather, the strongest, nimblest, swiftest fellows of each country, and these splendid young fellows would try their powers in brotherly contest. It is a theme fit for the writing of a new great epic poem.

We hope the best of all, football, cricket and general athletic champions will seriously take this matter in hand and prepare such a contest two years hence. It would be an attraction second only to a world's fair, more of an attraction than a world's fair is at present indeed. We have had many world's fairs, and we have not had one pan-English athletic contest.

Such games, too, would have a fine and far-reaching moral effect in cementing among English speaking peoples a bond of brotherhood and union which would be the best guarantee for the peace of the whole world.

**Make Them Useful.**  
The tramp is beginning to troop in fat and luscious from the summer count-downs and sweet potato patches. He declines and intends to go into hibernation at the police stations of the city, resting for his food at soup kitchens, restaurant doors and basement entrances, where the servant girl feeds him unknown to her mistress. For his whisky he will accept the manly hearted citizen with his usual, "Say, boss, could you assist a poor man a little with a nickel?"

Now is the time to frustrate his comfortable plans. In every city and town in this Union there are streets unopened and unfished, park digging, blasting and grading that cannot be done because there is no money to do it with. In every country neighborhood there are rough roads, impassable in winter, a danger and a detriment to all who would travel there. Set the tramp to work on these streets, roads and parks. Wherever one of them is caught begging arrest him and put him to work under strict supervision. This course can be taken by the trustees of any township, the council of any village or city. Feed the tramp while he is at work. See that the work is faithfully done. Have a home in which tramps may live measure and make them take a thorough bath at least once a week, fairly scouring themselves with scrubbing brushes. Thus will good roads be made; thus will the country be rid of tramps in one season. The tramp who will not work will quickly leave town.

The story of the tortures inflicted by Chinese officials on prisoners who give testimony in the missionary outrage cases are convincing proof that China ought to be dismembered and put under protectorates of the several civilized European nations, it does not matter much which of them, only so that a hindering hand be laid upon Chinese fiendishness and cruelty. In some cases the prisoners in the missionary outrage trials, after being starved, had their knees broken by crushing them into chain links, and then were beaten with bamboo sticks. No wonder the British consul protested against this method of taking testimony. No wonder either that the Chinese officials refused to allow foreigners to be present at the trials. These thieving, vicious, bribe demanding officials know of the uncomfortable squeamishness of western people over witnessing little things like breaking a prisoner's legs by torture. What is more, no one ever knows whether the prisoner is really guilty or not, for he is tortured till he confesses in any case. Yet this cruel, corrupt old China demands to be treated with as a civilized nation and wants her own native courts to deal with Japanese criminals found within her borders.

Somebody cried "Vive la France!" while the emperor and empress of Germany were riding in their carriage to the Metz cathedral. Dear, dear, how dreadful! A wise emperor would have ignored the incident altogether, making allowance for this little exhibition of bitterness on the part of an inhabitant of a conquered city. But Wilhelm is not wise. Therefore his imperial littleness resented it instantly as a horrible insult, and "several arrests were made" on the spot. Wilhelm will get into awfully rough waters, and hot, some of these days with his vanity and temper.

Already the list of fared fools is beginning to receive its full additions from the women who lock their children in a room and go off visiting, returning to find the house in ashes and the children burned to death.

Consuelo should not have trusted her love alone in Kentucky.

THE PLANTING TIMES

The English speaking nations have been in the nineteenth century an Englishman, Mr. J. A. C. ...

In digging the trees it is important to observe this difference. Cherry trees usually cease growing earlier in the season than peach trees, and are in less danger of harm by early removal. Peaches are naturally rather tender, and they are less able to withstand the coming cold with unripened wood. But they possess a greater natural power of recovering from severe pruning than most other trees. Among apples and pears, some varieties mature and drop their leaves earlier than others. They may be selected for earlier digging.

For the reasons here spoken of it will be seen that trees taken up late in autumn as a matter of necessity may be in a better condition for setting out than such as have been removed earlier. If they are to be heeled in by burying the roots and half the stems, they would be better prepared for setting in spring, according to the authority quoted.

**The One Flowered Millia.**

Is it not a beauty? It is a little bulbous plant named Trilepis multiflora. It is used to be called Millia uniflora, a native of Buenos Ayres, and quite hardy on Long Island. In the florists' catalogues it ranks as one of the cheapest of bulbs. As a hardy plant it likes good, deep, moistish ground and a warm, sheltered aspect. In such a spot it grows well, blooms like a line of

MILLIA UNIFLORA AS A POT PLANT

snow and multiplies considerably with age. In exposed, dryish ground it doesn't do as well. It blossoms in April and May, the flowers opening by day and closing at night. Although it seems to be perfectly hardy here, it has a habit of starting to grow in fall, and the leaves then made are apt to get scorched by frost with sunshine in winter.

While we all admit and admire its beauty we are alive to its strong onion odor, but, as in the case of growing onions themselves, the smell is barely perceptible till some part of the plant is bruised. If you plant a dozen or 20 bulbs in a 6 inch pot now and afterward treat them as you would a pot of hyacinths or tulips, next March you will probably have a nice little specimen plant for your window or conservatory like the potful shown in the illustration, here reproduced from Gardening.

**Holly Hedges.**

Holly, as a rule, are difficult to transplant, but Meacham, in his Monthly, tells that a number of trees transplanted in the fall, with all the leaves carefully cut off, all lived, with perhaps one or two exceptions. The leaves being cut off, the roots are not robbed of the sustenance which otherwise would have to be taken to supply the wants of nature. Hollies as hedge plants have few equals. Although they are quite common in America as an ornamental tree, we seldom see them used for hedges. Holly hedges are common in England, especially in the agricultural districts, their dark green leaves and bright scarlet berries giving a beautiful appearance to the roads and lanes along which they are planted. Holly grows in any locality and soils as well as in the spots where it is found in its natural form.

**Keeping Grapes.**

French horticulturists report success in keeping grapes from rot or mold by means of the vapors of alcohol. The fruit is placed in a brick room, cemented inside and closed as nearly airtight as possible by a common wooden door. The grapes were laid on wood shavings, and an open bottle containing alcohol placed near them. Grapes fresh from the vine were placed in this room on Oct. 31 and were kept in good condition until Dec. 24. One thing is sure, this process is simple and easy, and Rural New Yorker suggests to those who have an airtight cool place to test it.

The new ships of the Navy are being built at a rapid rate. The largest of them is the Minnesota, 7,570 tons. The others are the Olympia, 5,570 tons, and the Cincinnati and Raleigh, each 3,215 tons. Besides these, ten new armored cruisers are on the list of additions to our navy for 1895, though the completion of some of them will run over into the beginning of 1896.

Of the ten the Indiana, the Massachusetts and the Oregon are designed to serve chiefly as coast line battleships. They are of 10,288 tons each, and are among the best specimens of naval architecture extant. Two others, the Maine and the Texas, rank as second class battleships, being respectively of 6,682 tons and 6,315 tons.

Then we have for this year the ram Katahdin, the harbor defender Puritan, of 6,000 tons and carrying 12 inch guns, and three double turret monitors of 2,990 tons each, the Terror, Amphitrite and Monadnock.

Two great international questions now seem to be on the point of satisfactory settlement, both, it is gratifying to know, owing to the influence of the two great English speaking nations. One of the matters was the demand for the reform of the Turkish government in Armenia, which the porte has at last signified its willingness to comply with. It is true that the ultimatum presented to the Turk on May 11 was signed by Russia, France and Great Britain, yet there is no doubt but the firm and insistent attitude of Lord Salisbury, with England behind him, had more to do with obtaining the sultan's promise of reform than the influence of both the other powers. The promised reform of the Armenian misrule is therefore a victory for Great Britain. The other question that at last bids fair to be definitely settled is the boundary matter between Venezuela and British Guiana. That prospective amicable settlement is solely owing to the firm but conciliatory attitude of the United States government. England will at last arbitrate the claim which she pushed in 1885 to about 33,000 square miles of rich mining territory in the Guayana district. Undoubtedly, if it seems necessary, she will make other concessions rather than get into dispute with the United States, which she now sees plainly would follow any arrogant demand for the territorial extension of British Guiana.

**Children Cry for Pitcher's Castoria.**

The signs are that those who live ten years longer will witness the extinction of Turkey in Europe, so far as actual governmental power is concerned. A war may now begin at any time. It will begin by rebellion in Turkey itself. The night will be between the progressive Mohammedans and those who cling to the rotten old programme. The country will be thrown into universal disorder. The other powers of Europe will interfere to restore peace, and then the dismemberment will come. Whether territory will be added to the domain of any of the great powers themselves, or whether the sultan's European empire will be divided among the Balkan states, will be a matter of detail.

Colored voters in the north have political influence enough for the friends of the various Republican candidates to have watched with profound interest to find whom they endorsed for the presidential nominee at their national convention in Washington. Their practical unanimity in favor of one distinguished gentleman shows that the negro mind is inclined to favor a high tariff.

The fame of W. W. Story will live quite as much in his literary work as in the marble he leaves behind. One of his most famous statues is "Cleopatra," but great as it is his poem "Cleopatra" is undoubtedly greater. It is one of the strongest pieces of verse ever written by an American, and in many ways one of the most remarkable.

England induces the porte to promise to deal justly with Armenia; the United States induces England to promise to deal justly with Venezuela. Good.

Bushnell pays the freight.  
Mr. Bushnell, how much has the  
campaign cost you thus far?

The Republican State Committee,  
in its attempt to demoralize the vot-  
ers of the state with Bushnell's check  
book, has run against a snag.  
Taxpayers, remember that \$150,000  
of indebtedness added to the county  
will cost you \$9,000 a year in interest  
alone. This is the tribute you must  
pay if the Republicans get control of  
the county business.

Have you any of the Bushnell  
money?

Bushnell's hoodie barrel has had  
the bung knocked out.

The second installment of Bushnell  
money has been put up.

Fifty thousand dollars is a large  
sum for Asa Bushnell to put up at  
one time.

J. B. Foraker is a lucky man. He  
picks a man for governor who is able  
to pay all expenses.

Campbell is a poor man adding  
strength to a ticket. Bushnell is a  
millionaire weighing his ticket down.

Handling so much money may even  
be a temptation to the Republican  
State Committee. Let Bushnell see  
the books.

Gus Lutz's cause is growing strong-  
er every day. His sanguine friends  
now claim for him a majority having  
about the 1,000 mark.

It is rather an expensive thing to  
be a figurehead candidate for gov-  
ernor. But think of the honor of be-  
ing permitted to pay J. B. Foraker's  
campaign expenses!

A big bundle of Bushnell money is  
to be spent in Allen county during  
the next week for the purpose of de-  
feating the Democratic ticket this  
season. Look out for it.

Bushnell's attempts at oratory re-  
mind one of a moth with its wings  
burned off still trying to fly. But  
then he is worth ten million, and was  
chosen by Foraker and Cox.

Can Walter Standish, the Republi-  
can candidate for county treasurer,  
explain to the satisfaction of the tax-  
payers why he has, as chairman of the  
finance committee of the city coun-  
cil, endorsed the payment of bills  
illegally drawn?

The Stranglers will put a barrel of  
money into this county during the  
next ten days to defeat the people  
and elect some of their numbers to  
county office. They will expect to  
reimburse themselves from the coun-  
ty treasury if they are successful.

Will candidate Standish please ex-  
plain to the taxpayers why he each  
month lobbies through a bill to pay  
the Republican street commissioner  
\$3.00 a day, when the ordinance only  
allows that officer \$2.00 per day. Is  
not that payment of illegal bills, and  
a rank waste of taxpayers money?

The Lima Gazette is making a bit-  
ter warfare on Gus Lutz because he is  
a workingman. While Gus is a work-  
ingman and is proud of it, no one can  
say that he has ever allowed his taxes  
to become delinquent, or tried to  
dodge the payment of them. Can  
the Republican candidate say as  
much?

Democrats: Paste this in your  
hat. Standish, the Republican can-  
didate for treasurer, would not vote  
for one of you for public office under  
any circumstances. And should any  
Democrat support him he will boast  
afterwards that no Democrat was  
good enough for him to vote for, but  
that he had worked some of them to  
vote for him. Gus Lutz has always  
been a faithful, hard working Demo-  
crat.

The Stranglers organ, the Lima  
Gazette, devotes half a column this  
morning to a discussion of what  
Madison Edgcomb, of Beaver Dam,  
may have said regarding the Demo-  
cratic party. Madison is a probi-  
tionist, who has openly avowed  
that he would not vote for Standish  
for treasurer, or for any other man  
on the Republican ticket. The  
Gang organ is running quite low on  
campaign material when they find it  
necessary to ring in the testimony of  
prohibitionists to bolster up the fail-  
ing cause.

Why should taxpayers be com-  
pelled to pay Bob Gamble \$5 a day  
for every working day in every month  
in the year, when a great portion of  
his time is put in on private work  
for which he receives large pay?

Will candidate-for-treasurer Standish  
please answer that, and at the same  
time tell the taxpayers why he, as  
chairman of the finance committee,  
always votes for that wanton waste  
of the public money? The people  
who pay in the money with which  
this \$5-a-day beauty is gorged, de-  
mand to know by what right their  
resources are so recklessly wasted.

## SMOKED OUT.

The Ring Organ Forced to Take a  
Position Against the Work House  
Project.

The exposure by the TIMES-DEMO-  
CRAT of the sinister motives of the  
Republican Ring in attempting to  
get possession of the county funds,  
among which would be the squander-  
ing of \$150,000 for a work house  
scheme, has caused the stragglers to  
have their tool—the Lima Gazette—  
oppose the work house project. This  
course is but a blind with which to  
deceive the voters. As a matter of  
fact, the Republican gang have  
agreed with a certain member of this  
notorious crowd who is a ward heeler  
and claims to control some votes  
that if he will give them certain  
financial aid they will, in the event  
of Republican success this fall, buy  
his property at an enormous price  
as a site for the work house,  
using the people's money with which  
to do it. The Gazette this morning  
says "the Gazette has favored such a  
proposition," which means that the  
stragglers favored such a proposition.  
for the subservient tool of the gang  
dare not express an opinion unless  
permission is first obtained from the  
bosses. The plain facts are: The  
stragglers are positively committed  
to the expenditure of a lot of money  
for a work house, the amount reach-  
ing anywhere from \$100,000 to \$150,-  
000. The two Republican commis-  
sioners are committed on this subject  
and have assured the stragglers that  
they will do as the Ring may dictate  
in the premises. The exposure of  
the notorious scheme of the gang  
has set the stragglers to wondering  
how they can pull the wool over the  
eyes of the voters enough to deceive  
them as to the real motives they  
have in wanting to get the public  
money in their fingers.

It is fitting that the people of Al-  
len county should know something of  
the services of their servants, and  
the TIMES-DEMOCRAT is glad to fur-  
nish the following, as showing some  
of the labor performed by Represent-  
ative Rusler as a member of the last  
House of Representatives. He was  
placed on two of the most important  
committees at the beginning of the  
session, that of County Affairs and  
Municipal Affairs, the first com-  
mittee alone considering more bills  
than any other one connected with  
the House. Later on, after the  
resignation of Mr. Farrell, of Fair-  
field county, he was placed on the  
committee of Enrollment, through  
whose hands every law that is passed  
must go in order that no errors shall  
be made, and none but the most care-  
ful members are placed on this com-  
mittee. There were twenty-one  
Democratic members in the last Gen-  
eral Assembly, and of the number of  
standing committee reports made by  
these gentlemen, Mr. Rusler alone  
made 23 reports to the House, while  
the other 21 members made 64 al-  
together, which will give some idea  
of the attention to business and work  
done by Mr. Rusler. Would it not  
be much better to return an active,  
energetic man like this, than such  
an individual as Grandpa Eastman?

Will the Republican candidate for  
treasury, W. H. Standish, please ex-  
plain to the taxpayers about that  
job on the city building? The Lima  
Gazette charges Mr. Standish, as a  
member of the finance committee of  
the city council, with having en-  
dorsed a bill for \$121 for a certain  
piece of plumbing which the Gazette  
said could be done at a profit for \$50.  
Now if Mr. Standish has assisted in  
wasting \$71 of the taxpayers money  
in one bill of \$121, as the Gazette  
charges, he is not entitled to the vote  
of a single taxpayer in Allen county.  
If he has not been guilty as charged  
by the Gazette, he should explain and  
thus convict the Gazette of another  
falsehood.

P. Rooney Kerr, the statistical,  
political editor of the Gazette, (rice J.  
V. Smiley worn out early in the  
struggle,) has been for several days  
musing around the Sheriff's office,  
looking up the matter of fees, which  
the Stranglers have ordered published  
in their organ, the Gazette. It will  
probably be published in that sheet  
to-morrow or Sunday.

Will candidate Standish please ex-  
plain to the workingmen who within  
the past year have been working for  
reduced wages, out of which they  
had to pay their taxes, why he voted  
away their money to pay \$5.00 per  
day to Bob Gamble while that official  
was doing private work in Delphos,  
or at Spencerville, or at various  
other places.

# OUR SENATORS

Who Have Faithfully Represented This District  
for One Term

And Are Now Asked to Continue the Good Work for a  
Second Term.

They Were in a Hobeless Minority in the 71st General Assembly, but  
Will Have the Company of More Democrats in the 72d.

A Brief Resume of the Career of the Gentlemen on the Senatorial Ticket  
for the 32d Ohio District.

The ticket presented by the Democracy for the suffrages of the voters  
this fall is strong in every point. On the State ticket headed by our  
gallant leader Hon. James E. Campbell we have a coterie of gentlemen  
who are the peers of any who ever presented their names to the people of  
Ohio for election to any offices within the gift of the voters. Those gentle-  
men we all know by reputation and by their published careers as public  
men or private citizens. The gentlemen who compose the District and  
County tickets are entitled to the same measure of general commendation  
as those on the State ticket. In addition to this the people can speak  
from their personal acquaintance with these various candidates and will  
unite in saying that all are efficient, capable and deserving gentlemen,  
and that the ticket is exceptionally strong.

It is with pleasure that we to-day present in these columns the fol-  
lowing excellent portraits of our two present Senators from the 32d Sena-  
torial District—Hon. H. J. Lawlor, of Lima, and Hon. J. D. Johnson, of  
Celina. They served us faithfully in the 71st General Assembly of Ohio,  
and will be returned with a rousing majority to occupy seats in the Upper  
House of the 72d, where we hope they will find better company than they  
did in the last.

HON. HENRY J. LAWLOR,  
OF ALLEN COUNTY.

Every man in Allen county knows Henry J. Lawlor. For thirty-three  
years he has lived in Lima, and his life is as an open book to his consti-  
tuents. He has grown up among the people here, and those who have  
watched his career are proud of the way he has forged to the front rank.

He has, since he attained his majority, always been identified with  
the Democratic party. He was born and bred in the faith, his good old  
father, Mr. Samuel Lawlor, being one of the staunch Democrats of Lima.  
Senator Lawlor's advent into public life was several years ago, when he  
was elected to the city council from what was then the Third Ward in this  
city. He was a prominent figure in all the work of the council during his  
tenure of office. When he announced himself as a candidate for the Sen-  
ate, he found his many friends in Allen county enthusiastic for him and  
his nomination at Paulding, in the summer of 1893 was the consequence.

Of his legislative career there are but words of praise and commend-  
ation. He was a part of that gallant five which comprised the Democrati-  
c minority in the last Senate of Ohio. So badly were the Democrats in  
that body handicapped by the enormous Republican majority that they  
could not enact the legislation that they desired, but Senator Lawlor's  
vote was always found recorded on the right side and in the interest of  
the people. With the other Democrats in the Senate he cast his ballot  
against the many iniquitous measures introduced by the Republicans, but  
in the face of the enormous majority against them the gallant five could  
not defeat those measures, however much they may have desired to do so.

The unanimous nomination of Senator Lawlor at Bryan was a mer-  
ited endorsement of the work he had done for his constituents during his  
legislative career. The Democracy of the district were solid for him, and  
when they go to the polls on the 5th of November they will remember his  
gallant service in the past and will roll up a majority for him in the old  
32d district that will make Senator Lawlor proud of his constituency.

HON. JAMES D. JOHNSON,  
OF MERCER COUNTY.

The following, complimentary to Senator Johnson, is taken from the  
Celina Standard. It is with extreme pleasure that we present the like-  
ness of our townsman, Hon. Jas. D. Johnson, in the above cut. Mr.  
Johnson was re-nominated at Bryan, O., for a second term in the State  
Senate, by the sterling Democracy of this the 32d Senatorial District.  
His nomination by acclamation is an honor worthily bestowed upon a  
worthy man. Mr. Johnson is one of the brainy young Democrats, of  
whom not only his own town and county but Northwestern Ohio have  
reason to be proud. Beginning his career by the practice of law, his in-  
tellect, powers of discernment and oratorical abilities were fully devel-  
oped before he entered the political world.

Throughout the last General Assembly Mr. Johnson was recognized  
as a leader in the senate second to no other and his close attention to busi-  
ness during the sessions of that body proved conclusively that his official  
position was no empty honor but one of hard work to which he gave ser-  
ious consideration. He was not there for political spoils but for official  
well doing and with him public office was indeed public trust not to be  
neglected in a single detail, whether of trivial or great import. He was  
ever ready for duty and he battled for the right with a power and a marked  
ability that soon accorded to him the leadership of his party. When the  
time came for an expression of his sentiments he was heard from in no  
uncertain tones and his zeal and eloquence never failed to hold the atten-  
tion of his colleagues. Both his voice and his vote were that of a true  
statesman who believed in his party and his own integrity to advance its  
best interests. Always in his seat he never was the man to shirk any re-  
sponsibility he was called upon to shoulder. No routine of business was  
too dull or tiresome for him and he was never once known to be direct to his  
duty.

Tom Robinson says he wishes that  
the affairs of the city were as well  
managed as they are in the county.

The Republicans of Allen county  
are panic-stricken and in their des-  
peration have called on the State  
committee for help. A meeting has  
been arranged for Lima on next Fri-  
day, to be addressed by James H.  
Hoyt, of Cleveland, S. A. Doyles, of  
Chicago, A. M. Harley, E. P. Allen,  
W. D. Davies—not M. C. of  
of Sidney,—and Asabushnell, of  
Springfield. The speakers are  
all small fry. George B. Cox  
McKinley, Foraker and other steller  
attractions not having time to come  
into Lima and speak, after Campbell  
has electrified the people with his  
eloquence.

If a man occupying the position of  
a member of the finance committee  
of the city council would endorse a  
bill of \$121.00, which the Lima Gaz-  
ette says should only have been \$50.00  
—he wastes \$71 of the tax payer's  
money. The Lima Gazette says Mr.  
Standish did just that thing with  
reference to a plumbing bill in the  
city building. Now the question is:  
Did the Gazette lie, or is the Republi-  
can candidate for treasurer guilty of  
paying over double price for supplies  
for the city. If the latter is true he  
is not the man for the people to put  
at the head of the county finances.  
And as he has never denied the Gaz-  
ette's charges or made any explanation  
it is the logical presumption that it  
is true. Vote for Gus Lutz for treas-  
urer. He has never assisted in mak-  
ing tax payer's burdens heavier.

## AMONG THE RAILROADS.

The sidetrack known as Smart's  
Spur, on the L. E. & W., has been  
abandoned.

The sidetrack connecting the L. E.  
& W. with the Jarecal sucker-rod  
factory is completed.

## BUILDING DOUBLE TRACKS.

The work of double tracking the  
P., Ft. W. & C. road has been re-  
sumed and a gang of men are now at  
work putting down the tracks on the  
roadbed, which was built two years  
ago between Wheeling and Windsor,  
a distance of ten miles. When this  
work is completed other portions of  
the line will be similarly treated.

## NEW C. & F. TIME CARD.

On Sunday, Nov. 3rd, a new time  
card will go into effect on the C. &  
E., and there will be two important  
changes in the west bound passenger  
trains. No. 1, which is now due  
here at 9:10 each morning, will not  
leave Marion until 9 o'clock, and con-  
sequently will not arrive here until  
about 10:40 o'clock. West bound  
passenger train 5, which is now due  
here at 1:12 in the afternoon, will  
arrive after the new time card is ef-  
fective, at 11:45 a. m., and will over-  
take and pass No. 1 at or near Kings-  
land, Ind. No. 5 will carry a sixty-  
five foot mail car, hauling only  
through mail between New York  
and Chicago. The train will be  
scheduled a fast one and will make  
very few stops.

## A GIGANTIC COMBINATION.

A rumor is abroad in railway cir-  
cles to the effect that a movement is  
in progress with the object of uniting  
several of the transcontinental lines  
into one system, extending from Chi-  
cago to the Pacific coast. The lines  
said to be in the deal are the Atchi-  
son, Topeka and Santa Fe, the Den-  
ver & Rio Grande, the Rio Grande,  
Western and Northern and the Ore-  
gon Short Line. The project is of  
such magnitude that it is regarded  
with doubt by well-informed railroad  
men. According to the report, if the  
government takes possession of the  
Union Pacific and the Central Pacific  
as one system, the consolidating lines  
named, perhaps with the substitution  
of the Colorado Midland for the  
Denver and Rio Grande, is almost a  
sure thing.

## MICHAEL.

GOOD TIME made in the Y. M. C. A. Hare and Hound Race.

A goodly number of the Y. M. C. A. association's athletes ended the preliminary hare and hound chase at evening in a very good condition on the gymnasium to Dr. Baxter's shoe and return in twelve and a-half minutes, which is considered very good time for novices. The following are the winners in rank: Charles, Spyker, Burgoyne, Winemiller, Chas Reynolds, Sanders, Reel, Kelly, Graham, McKenney, Morris and Bresler.

The physical director, and in fact the association's officials, admire the and the participants had, while a dozen of our stronger element stood

gazing at them with their hands in their pockets.

The second preliminary race will be Nov. 7, at 8:30 o'clock around the base ball grounds, down the Shawnee road and return. Every member of the gym in the various classes should begin to train, so as to be in the final Thanksgiving morning chase. First gym contest Nov. 5. Enter soon. Clerk's class this evening at 8 o'clock. Business Men's class is increasing every day, but we are glad to announce that there is always room for one more. Make arrangements for your physical examination.

### BODY CUT IN TWO.

Patrick Dailey, of this City, Killed in Findlay.

Attempted to Board a Freight Train on the L. E. & W. and was Thrown Under the Wheels.

The remains of Patrick Dailey, of this city, who was killed on the L. E. & W. at Findlay last evening, were brought here this morning at 9:25 o'clock for burial and taken to his home at 104 north West street.

The funeral services will be held from St. Rose's church to-morrow. The Findlay Republican this morning contains the following account of the accident:

Patrick Dailey, better known as "Fox," a tank builder who had for two weeks been employed at Stuartsville on the large tanks in course of construction there by the Buckeye Pipe Line Co., met with a terrible accident last night which resulted fatally at the West-Main street crossing of the L. E. & W. railroad in this city.

On Wednesday Dailey was laid off, together with a number of other men, on account of the lack of work. He received his wages the same day. At about 6 o'clock last evening the crowd which Dailey was with went to the Burnett House for their supper. At about 7 o'clock, Dailey heard a freight train coming in from the east and suddenly made up his mind that he wanted to go to his home in Lima and thought he ought to get on that freight train. His comrades tried to persuade him not to attempt to jump onto the train while it was in motion, but he did not heed their warnings and, as the engine went past he got up and ran out of the side door of the saloon in the direction of the train, which was not going at a very great rate of speed for the reason that it was just getting started and was carrying a heavy load.

One of Dailey's comrades, W. E. Benninger, attempted to stop him, but without any success, for he freed himself from Benninger's grasp in a minute and caught the fifth car back of the engine, just at the north side of west Main-Cross street, endeavoring to jump on. He caught the handle bar at the end of the car with one hand, but failed to get a foothold and lost his grip so that he fell between the two cars with his body across the track and his head between the rails. His clothes caught on the brake of the car and he was dragged about twenty feet before he became loosened and then fifteen box cars passed over his body before the train could be stopped by brakeman Mike Frederic, who noticed the man's clothes flopping between the cars and thought it was a broken rail.

As soon as it was learned what was the matter, the train was broken and a section was taken up over the track a short distance. It was then found how terribly the man had been mangled and cut.

It was a horrible sight. The body was cut in two, the right limb was mashed and the entrails were lying in a heap near by, while small pieces of flesh and bone were scattered all around the body. The face was turned to the south, while the left foot was pointing to the north. Little pieces of clothing and a pipe and other things which belonged to Dailey were found along the railroad for thirty feet.

The coroner and police were notified and the patrol wagon, supplied with a stretcher, went immediately to the scene. Coroner Wilson, who arrived shortly, ordered the remains

gathered up and taken to the undertaker's establishment of Frank M. Barnhart, on north Main street.

Dailey was a young man about 24 years of age and was not married. He had an aged mother and a brother at Lima, who were immediately notified of the sad affair. The unfortunate man was quite well known in this city, especially among the off men, having several times been employed in this field. While here he boarded at the Burton House, on east Crawford street.

A telegram was received from Thomas Dailey, brother of the deceased, at about 11 o'clock, asking that the remains be sent to Lima on the 1 o'clock train this morning, but the request could not be complied with on account of the short time intervening before the train was due. Coroner Wilson will hold an inquest at 1 o'clock this afternoon and make a thorough investigation of the matter.

### HIS WIFE IS LOYAL.

Mrs. Fred Killman Will Go Back to Her Husband

Who will be Released From the Penitentiary To-morrow, Having Served His Time.

Fred Killman who, a little more than a year ago was proprietor of a saloon in the Keil block, will be released to-morrow from the penitentiary, where he has served a year for being found guilty in Common Pleas Court of giving wine to a young girl, Dessie Hughes, who was enticed into a room in his saloon.

Killman's wife is still in this city. She is a competent tailoress and has earned a livelihood in a tailor shop since she was deprived of the support of her husband. Mrs. Killman has stated that she will again live with her husband when he is free, providing he will abandon the saloon business and the use of intoxicating drinks.

### EVEN THE WEATHER

Will Smile on the Democratic Hosts To-morrow.

The disturbance central over Lake Superior has moved eastward to the St. Lawrence valley, with increased intensity. A second disturbance is advancing from the extreme northwest, but at present it gives no promise for precipitation for this section. The remainder of the country is under the influence of the area of high barometer.

The temperature has risen generally over all sections, and the conditions are favorable for it to continue to rise over this section during the next thirty-six hours.

Conditions are favorable for it to continue fair over this section to-day and to-morrow.

### SECTION OF FENCE.

Knocked Down by a Horse Falling Upon It.

About 11:30 o'clock to-day a horse hitched to Jacob Kissell's delivery wagon became entangled in the harness and shafts on west Market street and getting beyond control of the boy backed upon the pavement in front of J. S. Smith's residence and broke down a section of iron fence by falling upon it. The animal was only slightly hurt.

### SCALP CUT

By a Fall Received in a Runaway.

As Thomas Lynch, of west Spring street, was driving over the C. & E. crossing on the Shawnee road, the horse frightened and ran away late yesterday afternoon, and Mr. Lynch was considerably bruised and a long gash cut on his scalp. Dr. Kahle dressed the wound.

### AN OVERCOAT THIEF

Wanted at Marion, Captured Here Last Night.

Just before west-bound passenger train No. 3 on the C. & E. left Marion last night, an overcoat belonging to the night yard clerk in the Marion yards was stolen from the telegraph office. The theft was not discovered until after the train had left, and the new-boy was suspected. A telegram was sent to Night Operator Dempster at the station here and he notified policeman Lehman and Ulrich, who boarded No. 3 when it arrived here at 11:41 o'clock and found the overcoat under a seat beneath the newsboy's baskets. The boy, who gave his name as Anthony Deikins, was arrested and locked up in the city prison.

The Marion authorities were notified of the arrest, and Night Yard Clerk Davidson and Night Chief of Police Hickman arrived here on train 1 this morning. Mr. Davidson identified the coat, and they returned to Marion with their prisoner this afternoon.

### TALES OF THE TOWN.

Mr. Thomas Beard, of 766 Bellefontaine Avenue, is dangerously ill with lung fever.

### ANOTHER NEW CASE

Of Scarlet Fever Reported to Health Officer Rudy.

The fourth new case of scarlet fever has been reported to the health officer since last Monday. The last case is reported from the residence of Benjamin Bowman, of 762 Bellefontaine avenue, the patient being Mr. Bowman's thirteen year old daughter. The house was placarded early this morning.

The Peck boy has almost entirely recovered from the attack of the disease that he suffered and the Williams child, whose case was reported Tuesday, is getting along nicely.

Poles Being Erected for the New Electric Light Service.

This morning a gang of men began erecting poles for the new electric light service, for which A. E. Townsend was recently granted a franchise. The poles are being erected northward from the power station on Main street.

"Down in Dixie" Will soon entertain the theatre goers of this city. This is the very successful play with the cotton compress and the pickaninny band. It was written by Scott Marble and is produced by Managers Davis and Keogh. The scenery, which gives very beautiful views of Southern localities, was painted by John H. Young, of the Broadway Theatre, New York. The story of the play is very exciting. The rescue from the cotton compress is one of the most thrilling scenes on the stage. The play abounds with jolly comedy. The pickaninny band not only plays musical instruments with great skill but also does a very effective Zouave drill. The boys additionally appear in the characteristic sports of light-hearted plantation coons.

**News and Notes.**  
Cranberries are again reported a short crop, though not as short as last year.  
Reports from the principal onion growing districts in the country indicate that the crop is at least 25 per cent larger than that of last year.

In most of the canning districts the tomato crop was only about half the average of last year and the yield only about half as heavy. But the amount of stock carried over was very heavy.

The pack of canned peaches is reported light owing to the high prices of fresh fruit.

The corn crop is doubtless the largest ever grown in view of extent of area.

The wheat product of the United States will, it is believed, not be far from 430,000,000 bushels.

It is estimated by Ezra Meeker, the leading grower and shipper of hops in the state of Washington, that the crop will not be more than half that of former years.

The assistant statistician of the department of agriculture says that the year 1895 is noted for "a restricted area and widespread failure of cotton and winter wheat, joined with a largely increased extent of corn and potatoes."

**Leather.**  
The multiplied and increasing uses of leather board are due to the improved processes in its manufacture. In the Belfast factories, according to The Age of that city, the stock is run through a cutter which cuts it up into strips about three or four inches long, the width and thickness vary some 2 1/2 feet deep and eight or nine feet long. In the middle of the vat is a partition, on one side being a revolving cylinder, the partition reaching to the end of the vat by a foot or more; the water is pumped from below into the vats, and the rags, paper, etc., having been cut up and put into the water, the mixture is formed. On putting the cylinder in motion this mixture continually passes round and round the center piece, under the cylinder and over the bed piece, where the friction squeezes and tears the rags into pulp.

beating machines and the rags are put into a bleach tub with lime and water and boiled 24 hours before being placed in the beating machines; by means of a conduit the pulp is carried into a large circular vat for storage, from which it is taken as needed, and by means of a force pump forced into another large vat where revolving paddles force it into a cylinder covered with a wire screen, where it loses part of its water, and, passing through the screen, comes in contact with an endless belt, or apron, over which it is evenly distributed. This belt is three feet wide, and passes under an iron roller of the width of the apron, and about three feet in diameter; the roller passing over the apron by means of adhesion takes up the pulp deposited on the apron, and continues to do so until it is of the desired thickness. The operator now passes a knife through the groove, cuts off the sheet of pulp from the roller, and a sheet of leather board is the result; drying follows.

**Nursing a Member of Parliament.**  
In the first place, the initial cost of obtaining a seat in the house of commons is always great. Candidates are obliged, by the corrupt practices act of 1883 (which has fixed a maximum scale of electioneering expenses, varying in amount according to the extent and character of the constituency) to furnish a return of their expenses, and, according to a blue book on the subject—issued in connection with the general election of 1892—it appears that close on a million of money was spent by the 1,307 candidates who fought for seats in the house of commons in that electoral campaign.

The average expenses of the 670 successful candidates were about £700 each. But that does not, as a rule, represent a third of the financial cost of the honor and dignity of the office of member of parliament. Before the contest takes place the constituency has to be "nursed" with the view of obtaining the good will and support of the electors. "Nursing" is a very expensive process. Many a man has spent from £1,000 to £5,000 a year for two or even five years before the general election in the constituency he aspires to represent. A newspaper has often been run by a prospective candidate at a tremendous loss, ostensibly for the laudable object of supplying the electors with news, but really to keep prominently before them the virtues of the man who is wooing their suffrages, and the grandeur and magnificence of the political principles he supports.—Chambers' Journal.

**Socials to the Last.**  
The other night at the Garfield club reception one of the old tars told the following yarn: There was a shrewd and witty old Irishman who took much pleasure in making sport of other shrewd people. He went to his lawyer and made his will. Among the provisions was that outside of the cost of the funeral he wanted \$50 spent.

"When do you want it spent, going to the graveyard or coming back from it?" asked the lawyer.

"Why, when going to the graveyard, to be sure."

"Why is that?"

"Well, I like to be sociable, and I can't be with you coming back, see?" and the lawyer saw.—Louisville Commercial.

**He Wondered.**  
"My faith in human nature—wonder a human nature—is strengthened," remarked a hotel proprietor the other morning, as he opened his mail; "here is a towel belonging to the house returned to me with a line from a recent woman guest that it was inadvertently carried away by her. I wonder," went on this wicked man ruminatively, "if the fact that the hotel name, in large letters, is across one end has anything to do with this rather unusual bit of feminine honesty?"—New York Times.

**DRUNK OR SOBER?**  
Painful Mistakes Sometimes Made With People Who Are In.  
Cases are unfortunately only too frequent where serious illness has been mistaken for intoxication, and where the sufferer has been taken to the station house instead of to the hospital. In fact, there are cases where all the skill of a trained physician is required to tell whether a man is or is not under the influence of liquor. In an article bearing the above heading The Hospital discusses this subject as follows:

"Roughly, we may say that the commonly accepted signs by which the man in the street recognizes the effects of alcohol are an untidy gait, incoherent speech, extravagant behavior and drowsy helplessness. Doubtless any one of these coming on suddenly in one who, up to the moment, has been as other men, would excite suspicion of disease. But the spectators do not see the beginning of the case. Till a man is helpless or obstreperous but little notice is taken of his vagaries, and in 99 cases out of 100 the decision must be arrived at from the actual condition visible to the eye, and a diagnosis is not always easy on such imperfect evidence.

"The first and most obvious signs of drunkenness are those dependent on unsteadiness of gait. From the street boy's point of view, these are always productive of hilarity, and even the better instructed are apt to look on inability to walk straight as conclusive, and yet how many maladies produce the same condition. Many a man in the early stages of locomotor ataxia has lost his character from his tendency to stagger in the dark. Then those conditions which go by the name of Meniere's disease may closely imitate the effects of drink. To the sufferer, when the paroxysm comes on, the sensation is of violent noises in the ear, accompanied by a feeling of being whirled through space, or as if the road, the houses and everything in sight were flying in large circles round about him, and no wonder that he seizes the nearest lamppost or sinks down sick and helpless on the pavement, clutching for security anything within his reach. To the bystander, however, he is a picture of the most abject drunkenness."

The writer here reminds us that not only organic diseases, but simple indigestion or headache may produce effects that simulate drunkenness. He goes on:

"People sometimes also unknowingly take drugs which have the same effect. In both these cases speech also may be affected, and explanation may be difficult. Disorder of speech, however, is usually connected with more serious disease, and a man with a small hemorrhage on his brain may stagger in speech as well as with his legs, and may be 'run in' as drunk when his very life depends on proper treatment."

"The same may happen after injury of the skull. A man, full of drink, may in a street row receive a blow which causes fracture of the skull, but he may not drop. He may walk away far from any evidence of riot, and then sit down, and, becoming comatose, may be taken to the station as being dead drunk. And here, if there be no obvious wound, everything is against him. The smell of his breath condemns him to the police cell instead of the hospital ward, and only at the post mortem is it found that his skull is broken, and that the pressure on his brain might have been relieved. Such cases as this occur almost every month. But, in fact, in the diagnosis of drunkenness the possibilities of error are endless. Poison, uremia, post epileptic states, the excited stages of general paralysis, sudden outbreaks of mania, the occurrence of diabetic coma, the onset of acute febrile diseases and even mere exhaustion and fatigue may all produce symptoms simulating the effects of drink. We cannot, then, too strongly emphasize the necessity of medical examination whenever there can be the slightest doubt whether a man is drunk or sober, nor can we too strongly urge any medical man who is called to such a case to be wary in his dealings with it, to distrust first impressions, to enter into all the symptoms, however plain the case may seem, and to remember the endless pitfalls in the way of hasty diagnosis."—Literary Digest.

**Father Mortars.**  
A generation or so ago a great deal of noise was made over the forcible taking of a boy child from his parents at Boulogne by papal gendarmes. As the law then stood, the act of the gendarmes was justified through the fact that the child had been secretly baptized by his Catholic nurse. The boy subsequently became a monk of the order of St. Augustine, and is now well known as Father Mortars—one of the most distinguished linguists of our time, speaking no less than 21 languages. He resides at Madrid, and the queen regent is a regular attendant at his church.—Exchange.

**DRUG STORES OF NEW YORK.**  
Wide Variety of the Functions of Some of the Shops.  
New York still holds by the traditional excellence of the German pharmacy, and "Deutsche Apotheken" is regarded as a business earning an announcement. German names are frequent on the signs of drug stores, and are not confined to the German quarter. There are well on to 1,000 retail druggists of all sorts in this town, and there are far more Germans in the business than persons of any other three nations.

There is an interesting variety of character in drug shops according to the part of town in which they are located. Half a dozen large retail drug shops are famous as dispensers of soda water and the hundred and one other drinks that are sold with that beverage. Such drug stores, on a small scale or a large, are scattered from end to end of the city. As a rule the druggist whose shop is not in an important shopping quarter or a semifashionable residence quarter, does not make the soda fountain and its adjuncts specialties of his business. The druggists of the German quarter, where soft drinks are not popular, tend to develop the prescription and patent medicine trade. Many of them are manufacturers of some popular patent medicine, and there are some tiny pharmacies in the German quarter where only a few patent medicines are sold, and there is no pretense of compounding prescriptions.

There are other druggists on the east side of town that make a specialty of domestic remedies, such as hen oil, goose oil, snake oil and even skunk oil. The herb dealers are famous throughout the city. Many of them do an entirely proper business, but occasionally they seem to play upon superstition. Doubtless the hind foot of a graveyard rabbit could be purchased at some of the obscure drug shops.

The druggists of the French quarters, old and new, keep modest shops and make no specialty of articles foreign to their business. Not only French, but German, Italian and Spanish also are spoken at some of these shops. There are a few Spanish and Italian druggists, and a very few colored men are engaged in the drug business. Irishmen are also rare in the trade. There are half a dozen very old drug houses in the city, and about as many names that are classic in the trade. A few of the most famous houses stick resolutely to the legitimate business of putting up prescriptions and selling drugs and appliances for the use of the sick.

The up town prosperous region west of Central park has developed a class of drug stores peculiar to it only. Many of these are large, airy shops, with many clerks and a great variety of goods. You can buy almost anything at an up town west side drug store. It makes a specialty of the soda fountain in its greatest development. They deal not only in soap, perfumes and a dozen toilet appliances, but also in cigars, confections, fine liquors and some sorts of plated silver. They also maintain stamp agencies, telephone stations and express offices. Some of them are elaborately fitted up with stained glass and richly tiled floors.

The west side up town drug store is, indeed, an institution of general utility, occupying relations toward the community that no other one kind of business house has had the courage to assume. They are by far the showiest shops in those parts, and their business lies with every sort of person in the community, sick or well. Some of these shops are branches of older houses further down town that are conducted in a very different fashion.—New York Sun.

**Animal Fur.**  
Fur is a threadlike fiber, which grows out of the pores of the skins of animals. It grows in length from the root, and not from the top, as with vegetable productions. The lower portion merely lengthens out, and the top projects forward, consequently, if once cut, it will always remain blunt. It is tubular and filled with oil, which gives to the fiber its color. In addition to the oil it contains mineral matter, among which are sulphur and iron. A close examination of the fiber will, to a certain extent, show the section of the quarry the animal inhabits. The short and crisp, with an oval or angular cross section, indicates tropical growth; the long and soft, with circular cross section, a northern climate. The fibers from different parts of the same animal have a different structure and value, that which is taken from the back of a land animal being the finest, while the reverse is true of the animal which confines itself mostly to water, the belly being much finer than the back.

**Laborsaving Electricity.**  
The hopes of electrical scientists are more brilliant and amazing than anything that was ever called utopian, and make our present day contention for limiting labor to eight hours a day a piece of timid modesty. If one-fourth of what is seriously contemplated at present shall ever be realized, the curse of exhausting toil which has debased mankind for countless ages will be abolished and there will no longer be any necessity for pauperism. I have found that by inserting wires in the earth to catch the magnetic currents which are continually passing round it I can intercept enough to be of great value to the human constitution as a restorative influence that works in harmony with life. If the reader will repeat the experiment, let him bury a copper wire in the ground one or two feet running north and south, and place a sensitive constitution in connection with the end.—Professor J. R. Buchanan in Arena.

John C. Trantwine, chief of the waterworks bureau of Philadelphia has given a definition of political immorality. He says it is levying assessments of public employees.

Varieties Among the Newer Sorts That Bear Fine Fruit—Excellent Old Varieties.

Numbered with the newer varieties of pears is the Duhamel du Monceau, originally from Angers, France. It is valued to succeed the Winter Nelis. It is full medium size, pyriform and rounded, skin deep yellow with patches and nettings of russet. The flesh is a little granular, buttery and very melting; flavor not very rich, but agreeable and delicious. The tree is vigorous and bears well. Fruit ripens in January as well as any pear in autumn. Dr. Reeder is a small but excellent pear, raised from seed at the Winter Nelis. Dr. Henry Reeder is a small pear, raised from seed at the Winter Nelis. The fruit is roundish oblong, the skin is greenish, becoming yellow, with some thin russet; the flesh is but-

**PITTSBURG STOGIES.**

How the Slender, Black Looking Tobacco, Rolls Got Their Name.

The origin of the name "stogy," or "stogie," as it is also called in Pennsylvania, has been a matter of considerable dispute. The most probable derivation is that given by a Wheeling manufacturer who has been engaged in stogy making for 40 years. He says:

"The names 'stogy' and 'stogie' are both abbreviations. About 80 years ago, before the days of railroads and after the completion of the national pike, connecting the cities of Washington and St. Louis, there was used for conveying goods a vehicle called a conestoga wagon, or simply conestoga. The drivers of these were called conestoga drivers. In those days the pipe was used by those unable to afford cigars. Some inventive genius—I have forgotten his name—conceived the idea of making a cheap smoke for the driver. He got some tobacco and rolled or twisted it in a crude way so that smoke would go through it and sold it to these drivers; hence they came to be called 'conestogas.' The tobacco used was of good Kentucky stock, which was in those days very cheap. Besides, there was at that time no internal revenue tax on them. When I began business in 1840, there was one other man engaged in it, and both factories employed from four to seven men."

The character of the stogy has changed but little in the 75 years of its manufacture. The stogy of the early days was about 4½ inches long and made by hand of long filler Kentucky tobacco. The stogy of today is 6½ inches long, but the materials and process of manufacture remain the same. The choicest brands of stogies in all manufacturing are made from Kentucky tobacco, although Ohio, Pennsylvania, Wisconsin, New York and Connecticut furnish what is known as a seed tobacco, which is largely used in the manufacture of stogies.

The use of stogies has been largely confined within a radius of 200 miles of Wheeling. In this district every one smokes them. The Pittsburgh millionaire and the street urchin, the coal king along the Ohio and the roustabout on the coal barges meet on the same level when it comes to stogies. Within the last few years the stogy has been burning its way into smokers' hearts all over the country. In 1893 a box of Wheeling stogies, which found its way into the cigar making town of Key West, was exhibited as a curiosity in the office of one of the manufacturers there. The business of stogy making, like that of electricity, is yet in its infancy. A taste for stogies has to be acquired; but, once acquired, the stogy smoker will pass over a quarter Havana and select one of those long, slender, black looking, pungent smokes that cost a cent apiece.—New York Herald.

**Newport Servants.**

The Newport servants have their own coteries, their own circles, their own friends and their own entertainments, just as their masters and mistresses. A Vanderbilt butler would no more associate with the footman, or the first or second man of a newcomer whose social position was not defined, than he would dream of marrying into the household of one not in "our set." You see these clean shaven men servants off duty, strolling on Bellevue avenue or down in the narrow thoroughfares leading to Thames street, laughing and exclusive and bowed down to by the grocers, the trades people and suppliers of Newport luxuries.

On Sunday, when the great resort is the beach, with its flying horses and other attractions, and there many rendezvous are made and the affairs of the people above stated ruthlessly criticized and discussed. In many of the very hands, some stables out on the ocean drive the bachelor coachmen and footmen have enviable lodgings and entertain each other in card parties and other social gatherings of like character.—New York Commercial Advertiser.

**His Dilemma.**

Zilnaog—Buzley, Um in an awful fix on account of a big debt I've got to meet tomorrow. Can you give me a lift?

Buzley—Can I? No! Why don't you sell that diamond on your shirt bosom if you're so anxious to pay your debts?

Zilnaog—Why, my dear fellow, how can I? The debt is on the diamond.—Roxbury Gazette.

**A CRY FOR HELP**

RESULT OF A PROMPT REPLY.

Two Open Letters that Should Suggest to Thousands of American Women to go and do Likewise.

LITTLE FALLS, MINN., May 11, 1894.

My dear friends, I have been very much distressed in both sides of my mouth, extending down the front of my neck and lower part of my back, attended by headache and pains in the back of the neck and ears.

The doctors have given me opiate to quiet the pain. I have a very high fever nearly all the time. I am nervous, and cannot stand. My doctor says I must keep in bed. Now I place myself under your care. I am only twenty-one years old, and too young to suffer so much.—Mrs. CHAS. PARKER.

The above letter was received by Mrs. Pinkham at Lynn, Mass., May 10, 1894, which received a prompt reply.

The following letter reached Mrs. Pinkham about five months later. Note the result.

LITTLE FALLS, MINN., Sept. 21, 1894.

"I deem it my duty to announce the fact to my fellow-sufferers of all female complaints, that Lydia E. Pinkham's treatment and Vegetable Compound have entirely cured me of all the pains and suffering I was enduring when I wrote you last May. I followed your advice to the letter, and the result is simply wonderful. May Heaven bless you and the good work you are doing for your sex!"—Mrs. CHAS. PARKER.

All the druggists in town say there is a tremendous demand for Lydia E. Pinkham's Compound; and it is doing lots of good among the women.

If you are sick and in trouble write to Mrs. Pinkham. Relief awaits you.

**Monument to Our Husband.**

Though possibly not an example of absentmindedness, an inscription which I have seen in the cemetery at Doylestown, United States of America, is a singular one, at any rate, in one sense of that word. In four corners of a lot are buried the wives of a man whose name I have forgotten, and a stone over each gives the name of the woman, wife of, let us say, T. Smith, dates of birth and death. In the middle of the lot is an imposing monument, with the simple inscription of name, dates of birth and death and "Our Husband." His fourth wife, who survived him a few months, is credited with the arrangement and inscriptions.—London Spectator.

**A Valuable Parcel.**

A man in rustic attire shambled along the streets of Berlin, carrying in his hand a packet which was sealed and addressed, and with an inscription in the corner to the effect that it contained \$25 in notes. A passerby, who was struck with the sheepish look of the man, asked him what he was looking for. By way of reply the countryman held the packet under his nose and asked him to read the address, as he had forgotten it and was unable to read himself. In a tone of pleasurable surprise the other replied:

"By Jove, the parcel is for me! I have been expecting it ever so long!"

The messenger appeared satisfied at having accomplished his mission and added that he wanted half a crown for his trouble, which was paid on the spot. The new owner of the parcel at once retired to a dark corner to examine his treasure. He found nothing but a couple of sheets of printed paper, and in the middle a white label with the single word, "Sold!"—Berlin Letter.

The tremendous pressure to get orders filled at the mills has never been equalled, and the demand far exceeds anything heretofore known, and it is utterly out of the question to meet the demand.—The Iron Age.

**Formosa Fighters.**

The Black Flags, the famous fighters of Formosa, are a sort of land and water pirates. Not only are they fairly reliable soldiers with good weapons, but they are capable of carrying on a mode of warfare by poison. When the French beat the Formosans along the coast in 1881, the latter retired to the interior. When the French pursued them, they found a queer line of defense, beyond which they could make no progress, and in storming which many died. The Formosans had poisoned the springs, water courses, etc., as they retreated, and the campaigns of the French against them never got further than the poison line. The poison was a native one, as deadly as arsenic or strychnine.

She Had Been There Too.

"I never eat pork," remarked Mr. Squibbs, "without thinking of the parasites."

"Dear Paris," replied Miss Lakeland, "but are they really large consumers of our pork, though?"—Albany Argus.

## THE RALLY

O. Democrats in Lima To-morrow  
Will be a Great Event.

Everything Favorable for the Largest  
and Most Enthusiastic Demonstration  
Ever Held in Northwestern Ohio  
Line of March-Speakers of the Day  
-Torchlight Procession in the Evening

The Democratic rally which will  
be held in this city to-morrow and  
to-morrow night, will doubtless be  
the greatest and most enthusiastic  
demonstration ever held in North-  
western Ohio. The visitors will be  
numbered by the thousands, as Dem-  
ocratic clubs and organizations from  
all over Northwestern Ohio and East-  
ern Indiana will be here to partici-  
pate in the exercises of the day.  
Every incoming train during the day  
will bring in thousands of people  
who are anxious to hear and see the  
eminent speakers who will address  
the meetings.

Unfortunately to-morrow will be  
the last day of registration in Cin-  
cinnati, which will prevent the at-  
tendance of the Duckworth Club of  
that city. The regrets of this club  
were received to-day. Among the  
prominent clubs in attendance will  
be the Hendricks and Jeffersonian  
Clubs, from Ft. Wayne; the Thur-  
man Club, of Columbus, and a large  
number of other Democratic orga-  
nizations.

The speakers of the day will be:  
Ex-Governor James E. Campbell,  
Senator David B. Hill, of New York;  
Senator Calvin S. Brice, Hon. John  
A. McMahon and Hon. John B.  
Peaslee.

The fact that these eminent  
men will speak upon the  
issues of the day will bring thou-  
sands of people into the city from a  
distance and the city itself, realizing  
the honor conferred by the visit, will  
be elaborately decorated in holiday  
attire.

The speakers will occupy stands  
which will be erected upon the pub-  
lic square, provided the weather is  
favorable, which is quite probable,  
and the addresses will begin at 2  
o'clock in the afternoon and at 7:30  
o'clock in the evening.

All visiting delegations will be  
met at the depots and will be  
assigned to their respective po-  
sitions in the parade.

The morning parade will move at  
10:30 o'clock, and the evening parade  
and torch light procession will move  
at 6:30 o'clock.

## THE LINE OF MARCH

will be as follows:  
From Public Square, south on Main  
to Kibby; west to Elizabeth; south to  
Vine; east to Main; north to McKib-  
ben; west to Elizabeth; south to  
High; east to Main; south to Square.

## LOST AN EYE.

A Gang Foreman on the Lima  
Northern Seriously Injured.

Day before yesterday John Butler,  
foreman of a gang of construction  
men employed on the Lima North-  
ern, met with a serious and painful  
accident.

Butler was superintending the  
work of cutting a guard rail in two  
when a sharp piece of steel chipped  
from the rail by the chisel struck  
him in the left eye, destroying the  
sight and inflicting a very painful  
wound.

The unfortunate man was removed  
to his boarding house at 309 north  
Jackson street, where the injured  
eye was removed by surgeons.

## SOUTH SIDE DEMOCRATS

Will Have an Important Meeting  
this Evening.

There will be a meeting of the  
South Side Democratic Club in Eb-  
ner's room on east Kibby street, this  
evening at 7:30 o'clock. A full at-  
tendance is requested.

## Literary Treat.

Prof. C. C. Miller, Supt. of the  
Lima Public Schools, will lecture to-  
morrow evening at 7:30, Tuesday even-  
ing, at the El Dorado, or the  
Gilded Lane. This will be a literary  
treat. Admission, adults, 15 cents.  
Children 10 cents.

The Electric Cleanser, for  
cleaning carpets, rugs, cur-  
tains, silks and flannels, for  
sale at

## Bulbs! Bulbs! Bulbs!

Special sale of Hyacinths, Tulips,  
Freesias-Narcissus, Chinese Sacred  
Lilies, &c., at Swan Bros., Saturday,  
Oct. 26th. 7-5t

## Democratic Meeting

At Bath township house, Saturday  
evening, Nov. 2nd, 1895, at 7 o'clock.  
Speakers, Hon. Isaac S. Motter and  
George H. Metley.

## STREET TALK.

Ex Senator M. D. Shaw, of Wapak-  
oneta, was in the city last evening  
taking up the big Democratic meet-  
ing to be held there Tuesday evening.  
Gov. Mathews will be one of the  
speakers.

Colonel Kuert announces that a  
duel contest has been arranged  
for, to be held at Lima on October 27,  
to which all the officers of the Second  
are cordially invited. Company D of  
the 16th regiment, stationed at Pos-  
toria, challenged Company D of the  
23d, stationed at Van Wert, and the  
same has been accepted. The shoot  
will be a highly interesting one.—  
Lima News.

Cashier Crites, of the First  
National Bank, and family are home  
from Bloomington, the home of Vice  
President Adlai Stevenson, where, he  
states, he found the chief topic in  
political circles to be the coming  
election of James E. Campbell as  
Governor of Ohio.

## WAS DOPED.

A Harrod Man Thinks He was  
Drugged and Robbed.

A man who gave his name as J. T.  
Teckock, and claims to be a resident  
of Harrod, called at the police station  
late yesterday afternoon to solicit  
the assistance of the police in locat-  
ing some unknown persons whom he  
claims robbed him.

Teckock claims that night before  
last he went into the Office saloon  
and that the last he remembers was  
of taking a drink there with a man  
whom he did not know. When he  
recovered his senses he was in a box  
car near the C. & E. depot. He dis-  
covered at once that he had been  
robbed of a gold watch and chain and  
what was left of 85 after several  
drinks had been purchased. Soon  
after leaving the car he was met by  
policeman Lehman and Ulrich, but  
was too drunk to tell them very  
much, and was sent by them to the  
Ohio House to get a bed.

This morning Teckock returned to  
Spencerville, where he is working.

## FIRST WARD DEMOCRATS.

Attend an Important Meeting in the  
Club Room To-night.

There will be a meeting of the  
First Ward Democratic Club at their  
hall this evening at 7:30. Let there  
be a good attendance. Short ad-  
resses will be made by members of  
the club and others.

## SLIPPED

And Sustained a Fracture at the  
Left Elbow.

About 4 o'clock yesterday after-  
noon, while Lesley, 11-year son of  
John N. Steinbaugh, of 739 north  
Jefferson street, was on his way  
home from the Grand avenue school  
building, he attempted to climb over  
a train when he slipped and fell, sus-  
taining a dislocation of the left el-  
bow. Drs. Kahle reduced the frac-  
ture.

## EISTEDDFOD GOMER.

To be Held in a Large Pavilion  
at Gomer, Ohio, on October 30th,  
1895.

As the time approaches for the  
Eisteddfod, the various sub-commit-  
tees are diligently and actively com-  
pleting the different arrangements  
incident to such an undertaking, and  
every effort is being made for the  
comfort convenience and pleasure of  
our guests and patrons.

The Town Hall on that day will be  
devoted to the restaurant, where  
opportunities to refresh with warm  
meals and refreshments at reasonable  
rates will be open.

The location of the pavilion has  
been changed to the south side of  
the church. Should the pavilion be  
unavailable on account of unsuitable  
weather, the Eisteddfod will be  
held in the large auditorium of the  
Congregational church, and at all  
events the halls of the church will be  
open for warmth and comfort.

## Attention, Citizens of Lima.

All citizens of Lima, regardless of  
political belief, are earnestly solici-  
ted to decorate their houses and  
business places on Saturday, Oct. 26,  
in honor of the distinguished visitors  
and delegations which will visit our  
city on that day.

We will thereby also honor our  
city.

## TWO DRUNKS.

One Fired Out of Town and the  
Other Given Five Days.

Last night policeman Baker at-  
tempted to arrest a drunken man  
who gave his name as Phil McGuire  
when the latter attempted to dis-  
turb Baker. The policeman finally landed  
the man, however, and this morning  
the prisoner was sentenced to 5 days  
imprisonment at the police station.

Martin Carroll, a stranger who was  
arrested for drunkenness by police-  
man Roney, last evening, was fired  
out of town this morning.
